1288 the Council deems appropriate. The Council shall revise such plan at least once every six years and shall

1338 inventory, facilities, and such other areas as the Council deems appropriate. When consistent with the

1349 of student achievement in the revisions to the Commonwealth's statewide strategic plan for higher
1350 education.

1361 14. Provide advisory services to each accredited nonprofit private institution of higher education
1362 whose primary purpose is to provide collegiate or graduate education and not to provide religious training
1363 or theological education on academic, administrative, financial, and space utilization matters. The Council
1364 may review and advise on joint activities, including contracts for services between public institutions of
1365 higher education and such private institutions of higher education or between such private institutions of
1366 higher education and any agency or political subdivision of the Commonwealth.

1367 15. Adopt such policies and regulations as the Council deems necessary to implement its duties
1368 established by state law. Each public institution of higher education shall comply with such policies and

1376 the preservation of student transcripts by binding agreement with another institution of higher education
1377 with which it is not corporately connected or in such other way as the Council may authorize by regulation.
1378 In the event that an institution closes or has its approval to operate in the Commonwealth revoked, the
1379 Council, through its director, may take such action as is necessary to secure and preserve the student
1380 transcripts until such time as an appropriate institution accepts all or some of the transcripts. Nothing in
