

HB 1511

HEALTH, WELFARE AND INSTITUTIONS

1. Line 16, introduced, after practice

insert

, as described in the current North American Registry of Midwives Job Analysis. The Board of Medicine, in consultation with the Midwifery Advisory Board, shall promulgate regulations to allow for the possession and administration of medications by a licensed midwife and develop a formulary of such medications. Such regulations shall include a requirement for informed patient consent for the administration of such medications by a licensed midwife
