2. Except as otherwise provided in this chapter, not process personal data for purposes that are neither reasonably necessary to nor compatible with the disclosed purposes for which such personal data is processed, as disclosed to the consumer, unless the controller obtains the consumer's consent;

4. Not process personal data in violation of state and federal laws that prohibit unlawful discrimination against consumers. A controller shall not discriminate against a consumer for exercising any of the consumer rights contained in this chapter, including denying goods or services, charging different prices or rates for goods or services, or providing a different level of quality of goods and services to the consumer. However, nothing in this subdivision shall be construed to require a controller to provide a product or service that requires the personal data of a consumer that the controller does not collect or maintain or to prohibit a controller from offering a different price, rate, level, quality, or selection of goods or services to a consumer, including offering goods or services for no fee, if the consumer has exercised his right to opt out pursuant to § 59.1-577 or the offer is related to a consumer's voluntary participation in a bona fide loyalty, rewards, premium features, discounts, or club card program;

5. Not process sensitive data concerning a consumer without obtaining the consumer's consent, or, in the case of the processing of sensitive data concerning a known child, without processing such data in accordance with the federal Children's Online Privacy Protection Act (15 U.S.C. § 6501 et seq.).

B. Any provision of a contract or agreement of any kind that purports to waive or limit in any way consumer rights pursuant to § 59.1-577 shall be deemed contrary to public policy and shall be void and unenforceable.

C. Controllers shall provide consumers with a reasonably accessible, clear, and meaningful privacy notice that includes:

1. The categories of personal data processed by the controller;

2. The purpose for processing personal data;

3. How consumers may exercise their consumer rights pursuant § 59.1-577, including how a consumer may appeal a controller's decision with regard to the consumer's request;

4. The categories of personal data that the controller shares with third parties, if any; and

5. The categories of third parties, if any, with whom the controller shares personal data.

D. If a controller sells personal data to third parties or processes personal data for targeted advertising, the controller shall clearly and conspicuously disclose such processing, as well as the manner in which a consumer may exercise the right to opt out of such processing.

E. A controller shall establish, and shall describe in a privacy notice, one or more secure and reliable means for consumers to submit a request to exercise their consumer rights under this chapter. Such means shall take into account the ways in which consumers normally interact with the controller, the need for secure and reliable communication of such requests, and the ability of the controller to authenticate the identity of the consumer making the request. Controllers shall not require a consumer to create a new account in order to exercise consumer rights pursuant to § 59.1-577 but may require a consumer to use an existing account.

F. 1. Subject to the consent requirement established by subdivision 3, no controller shall process any personal data collected from a known child:

a. For the purposes of (i) targeted advertising, (ii) the sale of such personal data, or (iii) profiling in furtherance of decisions that produce legal or similarly significant effects concerning a consumer;

b. Unless such processing is reasonably necessary to provide the online service, product, or feature;

c. For any processing purpose other than the processing purpose that the controller disclosed at the time such controller collected such personal data or that is reasonably necessary for and compatible with such disclosed purpose; or

d. For longer than is reasonably necessary to provide the online service, product, or feature.

2. Subject to the consent requirement established by subdivision 3, no controller shall collect precise geolocation data from a known child unless (i) such precise geolocation data is reasonably necessary for the controller to provide an online service, product, or feature and, if such data is necessary to provide such online service, product, or feature, such controller shall only collect such data for the time necessary to provide such online service, product, or feature and (ii) the controller provides to the known child a signal indicating that such controller is collecting such precise geolocation data, which signal shall be available to such known child for the entire duration of such collection.

3. No controller shall engage in the activities described in subdivisions 1 or 2 unless the controller obtains consent from the child's parent or legal guardian in accordance with the federal Children's Online Privacy Protection Act (15 U.S.C. § 6501 et seq.).

§ 59.1-580. Data protection assessments.

A. A controller shall conduct and document a data protection assessment of each of the following processing activities involving personal data:

1. The processing of personal data for purposes of targeted advertising;

2. The sale of personal data;

3. The processing of personal data for purposes of profiling, where such profiling presents a reasonably foreseeable risk of (i) unfair or deceptive treatment of, or unlawful disparate impact on, consumers; (ii) financial, physical, or reputational injury to consumers; (iii) a physical or other intrusion upon the solitude or seclusion, or the private affairs or concerns, of consumers, where such intrusion would be offensive to a reasonable person; or (iv) other substantial injury to consumers;

4. The processing of sensitive data; and

5. Any processing activities involving personal data that present a heightened risk of harm to consumers.

B. Each controller that offers any online service, product, or feature directed to consumers whom such controller has actual knowledge are children shall conduct a data protection assessment for such online service, product, or feature that addresses (i) the purpose of such online service, product, or feature; (ii) the categories of known children's personal data that such online service, product, or feature processes; and (iii) the purposes for which such controller processes known children's personal data with respect to such online service, product, or feature.

C. Data protection assessments conducted pursuant to ~~subsection A~~ this section shall identify and weigh the benefits that may flow, directly and indirectly, from the processing to the controller, the consumer, other stakeholders, and the public against the potential risks to the rights of the consumer associated with such processing, as mitigated by safeguards that can be employed by the controller to reduce such risks. The use of de-identified data and the reasonable expectations of consumers, as well as

the context of the processing and the relationship between the controller and the consumer whose personal data will be processed, shall be factored into this assessment by the controller.

~~C.~~ D. The Attorney General may request, pursuant to a civil investigative demand, that a controller disclose any data protection assessment that is relevant to an investigation conducted by the Attorney General, and the controller shall make the data protection assessment available to the Attorney General. The Attorney General may evaluate the data protection assessment for compliance with the responsibilities set forth in § 59.1-578. Data protection assessments shall be confidential and exempt from public inspection and copying under the Virginia Freedom of Information Act (§ 2.2-3700 et seq.). The disclosure of a data protection assessment pursuant to a request from the Attorney General shall not constitute a waiver of attorney-client privilege or work product protection with respect to the assessment and any information contained in the assessment.

~~D.~~ E. A single data protection assessment may address a comparable set of processing operations that include similar activities.

~~E.~~ F. Data protection assessments conducted by a controller for the purpose of compliance with other laws or regulations may comply under this section if the assessments have a reasonably comparable scope and effect.

~~F.~~ G. Data protection assessment requirements shall apply to processing activities created or generated after January 1, 2023, and are not retroactive.

2. That the provisions of this act shall become effective on January 1, 2025.
